

Together on the way to a sustainable university

Whether it's an office workstation, a laboratory or a lecture hall - we can save resources and thus protect the environment everywhere, at any time and, above all, together!

University employees can have a BahnCard reimbursed if the business travel costs are amortised.

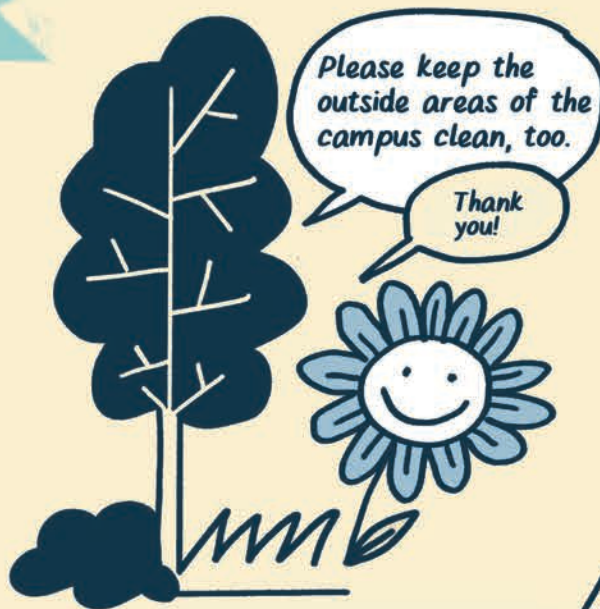

Careful use of resources in everyday life

WASTE SEPARATION:

Use existing waste separation facilities: Residual waste and Green Dot are placed in the separation containers in the corridors and in the kitchenettes. Just paper disposals in offices

Make Merseburg University green and environmentally friendly

THINK BEFORE YOU PRINT!

IN THE OFFICE:

Misprints? Use reverse side as a scratch sheet!

Print double-sided

Several pages on one sheet of paper

Heating on - only when office is in use
Maximum level 3

When leaving the office: Frost protection

When not in use: turn off electronics devices

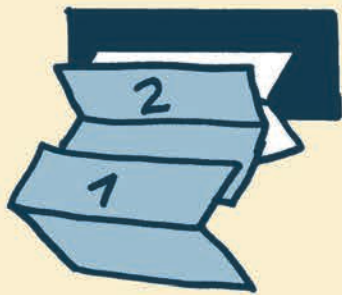

Lights off in unused rooms (toilets, kitchenettes, hallways)

TOILETS:

When soaping up: Turn off the tap (if not automatic).

2 paper towels are sufficient for drying.

Hygiene articles belong in the waste bin, not in the toilet!

Dripping tap? Report to Department 3.

MOBILITY:

Sustainable and mobile to the Home: by bike and public transport

bike repair station at the main entrance

Job ticket

Semester ticket

Carpooling

Business trips: by train instead of by plane and car = less CO₂ emissions

Save money and be environmentally friendly at the same time:

Online meetings instead of long journeys

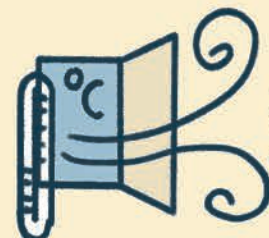

IN THE LECTURE HALL & SEMINAR ROOMS:

Avoid standby mode

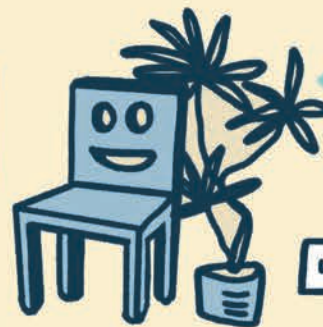

Lecture hall: When not in use, switch off lights and electronic equipment

Seminar rooms: Set heating to frost protection * when ventilating, otherwise set to 3

Illustration: Mimi Hoang

FURNITURE MARKET:

Further info at: www.hs-merseburg.de/klimaschutz

Discarded furniture is reused

EVENTS:

Study, teaching and continuing education.

Research focal points: Sustainable processes & digital transformation

Internationalisation

Integrate the university's goals, focal points and values into your event:

Climate protection

Equality

Diversity

Digital transformation

KEEP IN MIND WHEN ORGANISING:

REGIO

Hire a caterer who offers regional and seasonal products and no disposable products.

WEBSITE Home

Instead of using print products, create flyers and brochures and display them digitally on the website

Encourage your event guests to travel by public transport.
